Canon U.S.A., Inc. | Speedlite 580EX

The 580EX's maximum guide number is 58 (105mm, ISO 100 in meters) vs. the 550EX's 55. Battery life in the Canon Speedlite 580EX Flash should be longer than with the 550EX when using a FOV (Field of View) crop Digital SLR body (see the press release). Improved electronics should account for some additional battery life as well.

Canon Speedlite 580EX E-TTL II Flash Review

If the Speedlite has manual controls, you will be able to use it in manual mode. This also holds true for third party options with manual controls. What does E TTL Stand For? E-TTL stands for Evaluative Though-The-Lens. The system uses a pre-flash before a photo is taken to improve the quality of the exposure.

E TTL vs TTL Flash, What's the Difference? | Outside The Shot

If you are going to be using your speedlite to take studio style shots then E-TTL II probably isn't necessary as it's usually best to shoot in manual mode. If you are going to be moving around a lot when you are taking photos and your distance between the flash and the subject is constantly changing (such as at weddings, events and outdoor ...
