A certified registered nurse anesthetist (CRNA) is an advanced-practice nurse who is certified in anesthesia. According to the American Association of Nurse Anesthetists , nurses first gave anesthesia to wounded soldiers during the Civil War. Today, nurse anesthetists work in a variety of settings such as:

## **How to Become a Nurse Anesthetist (CRNA) ...**

A CRNA is an advanced practice registered nurse (APRN) who administers anesthesia to patients leading up to surgical, obstetrical, and trauma care procedures. Working long hours in settings such as hospitals, surgery centers, medical offices, and dental clinics, they oversee the delivery of general, local, and regional anesthesia.
