of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon.

In Chapter 11 (on Employee Assessment) there are also areas I would feel the need to supplement. For example, given the animosity associated with performance appraisals, I typically like to discuss the reasons for / purposes of performance appraisal and link it more clearly to strategic imperatives.

The ocean is a key component of the Earth system (Chapter 1) as it provides essential life supporting services (Inniss et al., 2017 1). For example, it stores heat trapped in the atmosphere caused by increasing concentrations of greenhouse gases, it masks and slows surface warming, it stores excess carbon dioxide and is an important component of global biogeochemical cycles.
