8-1 Review for Mastery: Functions

Review for Mastery Writing Functions continued After identifying the independent and dependent variables, you can write a rule in function notation. Remember that $f(x)$ is the dependent variable and x is the independent variable. Identify the dependent and independent variables. Write a function rule for each situation.

4-3 Writing Functions - Kristin Saracco

Review for Mastery Identifying Linear Functions You can determine if a function is linear by its graph, ordered pairs, or equation. Identify whether the graph represents a linear function. Step 1: Determine whether the graph is a function. Every x -value is paired with exactly one y -value; therefore, the graph is a function. Continue to step 2.

Review for Mastery - Mr. Gonzalez's Algebra Class.

The functions of a literature review are to: provide the context for research; acknowledge the work of others; familiarise you with the disciplinary "conversation" inform and modify your own research; identify an appropriate research question; find evidence to establish the need for the proposed research
