“No one could have foreseen then that the child held within himself a secret of life, able to lift the veil from the mysteries of the human soul, that he represented an unknown quantity, the discovery of which might enable the adult to solve his individual and social problems. This aspect may prove the foundation of a new science of child ...

The Secret of Childhood | Montessori 150

Of course, it is equally true that a child, while a person, is still at the beginning of their journey of development, a journey that unfolds over the whole human life span. It is in childhood that personality begins to develop and reveal itself. Maria calls this a “secret work of ‘incarnation” and comments that “the child is an enigma.

The secret of childhood (1939 edition) | Open Library

The Secret of Childhood is a passionate account of Maria Montessori's extensive research and many years of observation of child behaviour. Montessori considers the child in its entirety, including body, mind and the soul. A child is a mystery, argues Montessori, and the role of an adult is to facilitate the unfolding of child's true self.

History of Education

Before anything else, this book is a description of the child, seen with the exactness of a scientist and the empathy of a warm heart. From this understanding grew the way of teaching based on...
