Read Book The Systems View Of Life: A Unifying Vision

The Systems View of Life: A Unifying Vision by Fritjof Capra and Pier Luigi Luisi is an interdisciplinary book which presents "a unified systemic vision that includes and integrates life's" different dimensions (p.xii). All living systems are "highly nonlinear" networks where there are "countless interconnections" (p.xii).

many years.

The Systems View of Life

The systems view is all about connections and relationships, and it's about seeing the world as a living network, and not as a machine. This fundamental shift in perspective, seeing life as systems comprised of interconnected networks, is therefore a key concept.
