The meaning of "rationality—irrationality" in colloquial language is somewhat different from the original Jung's (and socionic) understanding of this term. The colloquial meaning of this word pair should be attributed rather to another dichotomy, logic-ethic (or T/F in the Myers-Briggs theory).

### SOCIONICS: Functions, Types, Tests

Understanding Socionics Generally speaking the more you know the easier it should be, but it's also easy to get caught up in trying to figure out which obscure, poorly-described dichotomy you belong to and such thinking is counter-productive. If you need to resort to more complex theory to justify your self-typing then it's not a strong typing.
